Highlights:

- ❖ Hands-on, technical skills training in a number of fields including: auto service, auto body, baking, business, chef training, child care, construction, cosmetology, design, graphic communications, hairstyling and aesthetics, health care, hospitality, manufacturing, parenting, woodworking, landscaping co-op and greenhouse
- ❖ Co-operative Education program that provides work placements in the community where students can refine, expand, apply and practice skills they have begun to develop in their academic and technical courses
- ❖ Strong Counting on You program, the Peel board's remediation program designed to help students improve literacy skills

More about West Credit:

West Credit Secondary School prepares students for the world of work, apprenticeships, trades and some college programs. The school provides a focused learning environment for students and a dedicated and supportive staff. Students are required to take Co-operative Education as part of their program.

The school's goal is to work with parents/guardians to challenge students to strive for excellence. Staff encourage the development of appropriate life skills to enable students to make positive contributions to their community. By developing these skills and using an approach that considers all aspects of the individual, West Credit provides students with tools for successful life planning. All students are expected to achieve high standards in meaningful ways that will open opportunities for them beyond the school.

In addition to a variety of locally-developed courses, West Credit offers a full complement of workplace courses that are geared to the development of literacy and numeracy skills. The school is recognized for its ability to help students acquire the skills they need to succeed in the workplace.
